

Remarks

Claims 1-9 and 15-25 are pending in the application, of which claims 1 and 2 are in independent form.

The Examiner restricted the claims into two groups: Group I (claims 1-9) and Group II (claims 10-14). Applicants respond as follows.

Applicants provisionally elect to prosecute the Group I claims 1-9 with traverse. Applicants note that independent claims 10-12 all depend directly or indirectly from claim 2, which is a linking claim. If restriction was deemed necessary at all, then selection of a species should have been requested.

Nevertheless, applicants have canceled claims 10-14. Applicants have, however, added dependent claims 21-25 that depend directly or indirectly from claim 2. These claims recite N-Type, P-Type, or liquid crystal display.

Applicants have also added dependent claims 15-20 that are copied versions of existing dependent claims with different dependence.

Applicants present claims 1-9 and 15-25 for examination.

Respectfully submitted,
